Dear Resident

**REF: PEARIE LAW WIND FARM – U40 ROAD CLOSURE**

I am writing to inform you of the following works which may have an effect on your current routine. For your information, details of the project are summarised below:

**Start Date:** 17 September 2015                      **Completion Date:** Mid October 2015

**Hours of Work:** Mon-Fri, 07:30-18:00hrs. No weekend working planned at this stage. There will be no Nightshift Working at any stage of the project, however, extended hours may have to be works during concrete pours and are very weather dependent.

**Nature of Works:** Drainage Upgrade & Road widening on U40. The road is being used as the delivery route for wind turbines to the new Pearie Law wind farm which will be situated to the south west of the road (see red boundary in Figure 1). The road needs to be widened as the delivery vehicles are extremely large and wide. To allow this work to take place the road is scheduled to close on 17 September for up to 6 weeks. The road will be widened by laying crushed stone in the ditches and the ditches will be piped to maintain the existing drainage.

**Figure 1 – Windfarm footprint**

In order to carry these works out there is a requirement to close this road from the C24 junction Road to the junction with the new wind farm. There will be "local access" through this diversion.

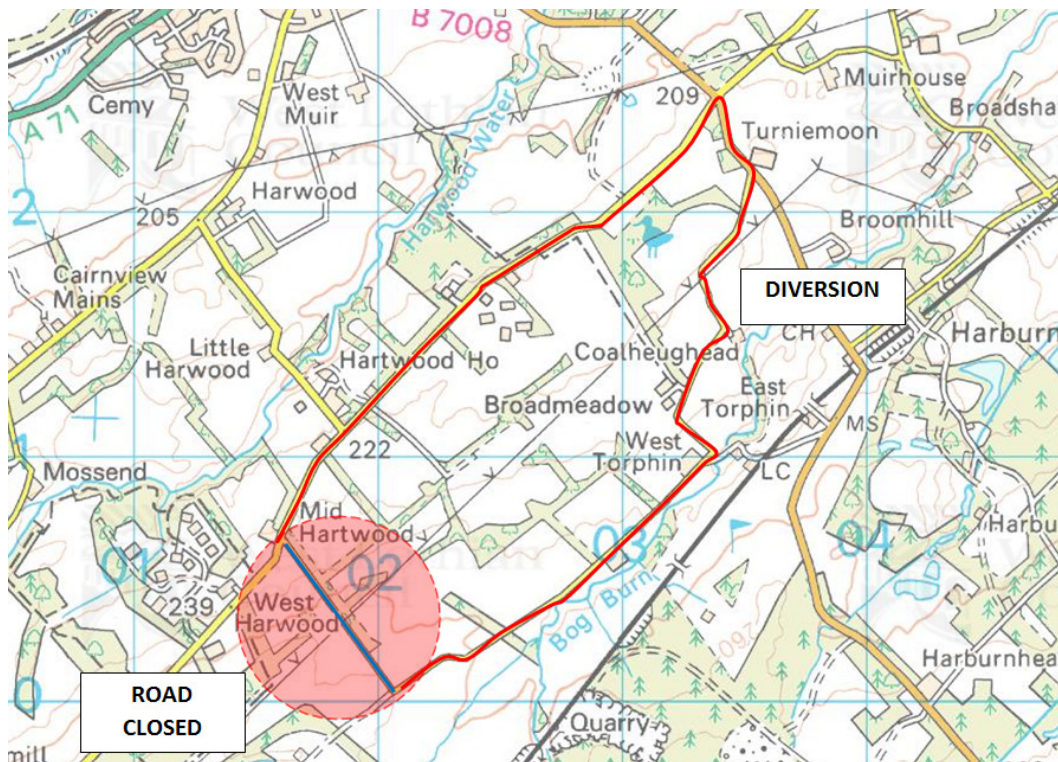

While I & H Brown appreciate that the U40 is used on a daily basis, I am sure you can appreciate the safety issues and logistics involved. This section of road will be closed from 17<sup>th</sup> September 2015 for approximately 5 weeks. It will however be fully open at weekends.

The planned diversion route will be as depicted In Figure 2.

We thank you in advance for bearing with us while we complete this project.
